LEDiving® Dynamic Mirror Indicator

ECE approved

Our OSRAM LEDiving® Dynamic Mirror Indicator for different car models are fully ECE compliant for a replacement of OEM Mirror Indicators in the mentioned type. The product bears the ECE approval mark that is mandatory for all approved automotive components. They are approved according to R6 and R10 and may therefore be installed and used in Europe.

The Dynamic Turn Indicator is registration free. This does not include individual custom requirements of countries, in addition to the standardized ECE certification of the product.

Note

The LEDiving® Dynamic Mirror Indicator were designed according to the regarding European car model. This means that local adaptations of the manufacturer may have an impact on the functionality of the LEDiving® DMIs.

For further questions about the product, please contact **automotive-service@osram.com** or contact us by phone under the following number: **+49 89 6213 3322**

Best regards
